

Department of Communications Media Engagement Session

By: Marcia Nekhumbe

On Tuesday, 15 July 2014, the Mpumalanga Department of Communications team hosted members of the media from around Mbombela to raise awareness of the departmental budget vote in Parliament. The event was also attended by some core team members.

The Mpumalanga provincial director, Mr Tiisetso Ramotse, shared on the role and responsibilities of the department in the province by means of a visual presentation. In this presentation, the element of communication support to provincial departments and municipalities was succinctly outlined. Mr Ramotse also mentioned various communication platforms used in disseminating government information to the community.

The media expressed their gratitude at being invited to the information session. They requested that more such sessions be presented in the future, as the information helped to address some of the challenges they encountered in their communication/media workspace. The media also gave some suggestions on how government could improve its products and give broader access to communities.
