INTERNATIONAL MANDELA DAY-18 JULY 2014

As South Africans and the entire world commemorated the International Mandela Day, Organisations, Government Institutions and individuals celebrated Nelson Mandela on the 18 July 2014 contributing their 67 minutes in the spirit of freewill and giving to those that are in need. Among these was the Department of Communications, wherein staff members came out in numbers to support the initiative and visited two homes, namely, Tender Love Care Old Age Home and Tshwaganang Orphanage Home. Communications staff lead by the Acting CEO Ms Phumla Williams, cleaned the two homes, did laundry and garden work. Among other things was interacting with the kids and elderly people residing in these homes and later handed donations to both homes. Minister of Communications, Faith Muthambi, at her arrival, interacted with the people present including the kids at Tshwaganang Orphanage Home and members of the media. These two events were very successful as the reception and appreciation expressed by both founders of these homes as well children and the Elderly in both homes.

GCIS-Video unit ready to commence with recording of the event
