**Molteno screening with services on wheels by Home Affairs, SASSA and Health**

## Inauguration of the President in Alma

MM Ramoshaba

South Africans braved the cold weather on the 07 May to cast votes. The first sitting of the National Assembly set on the 21/05/2014 whereby members were sworn and also took oath. The Speaker and Deputy Speaker were elected. Members of the National Assembly elected the President who was inaugurated on the 24 May 2014.

Community members of Modimolle Local Municipality at Moshia Secondary School were provided an opportunity to view Inauguration of the President on a big screen.

They were asked to share their views and expectations from the President and they responded this way:

David Koloti” I feel happy that the President was inaugurated today. I request that the President improves on service delivery especially on roads and corruption. The roads at Alma are very bad. We don’t have public transport due to poor roads “.

Rebecca Moima ”I feel I happy that the President was inaugurated and also provided another term to lead us. I believe that he will consider the issue of youth unemployment as most of the youth at Alma loiter around “.

Leroy Katiyo “I feel happy as a foreign National from Mozambique that South Africa had credible and peaceful elections expect that the President will attend to the backlogs of service delivery as was shown by community members protesting. The issue of corruption and youth unemployment should be dealt”

Phillemon Majila “The president has finally being inaugurated. I believe that the President and the new cabinet will deal with challenges /gabs during implementation of five priorities of government. We don’t have a police station in Alma. We travel 20 km to Rankins Pass. How will government win a battle over crime if facilities are far from people? How will people experience a long and healthy life style if at Alma we have a clinic that operates Monday to Friday only? Clients are referred to Modimolle which is 60 km with lack of public transport. The issue of youth unemployment should be attended. It is so frustrating for the graduates. Mr President, I also believe you were elected again as people believe that you can move South Africa forward”.

Shimane Modimolle “It is a big day to day in the History of South Africa. I feel happy that I did not miss the inauguration of the President. I did not go to Union Buildings but I appreciate that we were also considered to have a big screen to view the event. President please provides more bursaries to the youths to further their studies. I believe that the youths will appreciate creation of permanent jobs.

Jack Moloto” I appreciate that I did not miss the speech of the President during the inauguration. I have hope that he will address issues that affect the youths”.

Moshia High School learners entertain the audience during viewing of the screen at Moshia.
