

## GCIS staff members during the budget vote outreach in KwaZulu-Natal

As part of the provincial activities to market the services offered by GCIS, an information exhibition outreach was conducted outside the provincial office to sensitise the public about the budget vote and distribute government information. GCIS officials explained the contents of the information material to community members visiting the table. They were also informed about the budget vote on Friday, 18 July 2014, and encouraged to watch it.
