VACCINES ARE SAFE!

- The government reiterates that getting the COVID-19 vaccine is a choice, it is not mandatory.
- However, getting the COVID-19 vaccine has life-saving benefits compared to not taking it, such as reducing the risk of severe illness, hospitalization and death.
- Scientific evidence shows that vaccination is the best defence against serious infections.
- Vaccines teach your immune system to recognise and fight the infection.
- The government encourages you to choose vaccination for an extra layer of protection against the deadly disease.
