BUY LOCAL

- South Africa's economic renewal initiatives opens new opportunities for investors.
- Increasing local production will positively impact the revival of SA's manufacturing industry
- Industrialisation and localisation policies aim to build domestic production to supply local and foreign markets, support broader economic development and promote employment growth.
- Localisation will aid in creating a more inclusive economy and create more opportunities for entry into the industry sector.
- Let's all contribute to putting the South African economy and South Africans back to work by making buy local choices.
- Play your part, support local manufacturers to grow the economy.
