OFFICIAL GUIDE TO
SOUTH AFRICA

2022/23

Tourism

South Africa is blessed with an abundance of natural beauty and some of the most iconic landscapes in the world, an eclectic mix of cultures and tourism offerings and its greatest asset, the warmth of the people.

The mandate of the Department of Tourism (NDT), as outlined in the Tourism Act of 2014, is to promote the growth and development of the tourism sector; promote quality tourism products and services; provide for the effective marketing of South Africa as a domestic and international tourist destination; enhance cooperation and coordination between all spheres of government in developing and managing tourism; and promote responsible tourism for the benefit of South Africa, and for the enjoyment of all its residents and foreign visitors.

In recognition of tourism as a national priority with the potential to contribute significantly to economic development, the 1996 *White Paper on the Development and Promotion of Tourism in South Africa* provides for the promotion of domestic and international tourism. The National Tourism Sector Strategy provides a blueprint for the sector to meet the growth targets contained in the National Development Plan.

Attracting more tourists, growing the tourism economy and creating more jobs in the sector is vital to South Africa's economic recovery efforts.

The most recent data from Statistics South Africa and South African Tourism (SAT) show the sector is firmly on the road to recovery. In 2022, nearly 5,7 million tourists visited South Africa, and in the first quarter of 2023 the country received over two million visitors, more than double the amount in the same period last year. There was a 12, 3% increase in MICE (Meetings, Incentives, Conferences and Exhibitions) trips taken during January and March 2023.

South Africa has visa waivers for several African countries for a specified period and up to a maximum of 90 days, particularly in Southern African Development Community countries such as Tanzania, Namibia, Angola, Mozambique, Mauritius, Malawi and Botswana.

The e-visa system was initially launched for 14 countries and this was expanded to an additional 20 countries in 2023.

The implementation of the Tourism Sector Master Plan is expected to focus on enhancing destination marketing and working with all stakeholders including major global tech companies, the Tourism Business Council of South Africa, aviation sector, major hotel groups and the Township Tourism Associations, amongst others. Over the medium term, the department planned to continue its efforts to protect and reignite the demand for tourism to ensure that the sector lives up to its potential to contribute to South Africa's economic growth.

To do this, it intended to focus on enhancing growth and development in the sector, thereby contributing to broader economic growth; enhancing and maintaining core tourism assets and infrastructure while creating work opportunities; and supporting historically disadvantaged tourism enterprises.

Most of the department's activities are carried out through the Expanded Public Works Programme (EPWP), which, in the tourism sector, is aimed at enhancing

and developing tourism infrastructure through labour-intensive methods targeted at young people, women, unemployed people, people with disabilities and small, medium and micro enterprises.

The department aimed to implement spatial planning and infrastructure projects over the medium-term period to build capacity in township and rural economies, and is working to maintain infrastructure on properties managed by South African National Parks (SANParks).

These initiatives garner support for community-based projects and ultimately contribute to tourism development and work opportunities in rural areas. These projects are primarily funded through the Working for Tourism programme, which forms part of the EPWP, to enable the creation of a targeted work opportunities over the medium term.

Air access

Air access is another key priority for NDT to bring more direct flights to South Africa and ensure that the planes also leave the country with travellers in order to grow reciprocal relationships with countries around the world.

The African Union (AU) has also launched the Single African Air Transport Market, which aims to liberalise air transport on the continent and promote greater competition and connectivity. Air capacity has risen since 2022, with a 56% increase in the first quarter of 2023 compared to the same quarter in 2022. In 2023, the country reached 1.8 million seats, and South Africa welcomed around 23 new routes.

New direct flights, such as Cape Town to New York and Washington by United Airlines commenced in 2022 and Air China resumed its direct flight to OR Tambo International Airport in March 2023. The LATAM flight from Brazil to OR Tambo International Airport also contributes to South Africa's appeal.

Township tourism

The township tourism sector is a vital one for South Africa's economy and by mid-2023, the NDT was finalising plans to ensure all communities enjoy the full economic benefits of tourism.

The NDT planned to do this by broadening participation in the tourism value chain for South African Township and Village Tourism Association (SATOVITO) members and other businesses to develop new tour programmes into townships and villages while focusing on skills development and business acumen training.

SATOVITO is an inclusive organisation that aims to promote authentic, indigenous world standard tourism services and experiences.

It develops, represents and promotes township and village-orientated local, regional, provincial tourism association, businesses and indigents participating in the tourism sector. It aims to foster job creation by ensuring inclusive, sustainable development and transformation of the tourism sector, especially in townships and villages.

Tourism Sector Recovery Plan (TSRP)

The TSRP is in line with the Economic Reconstruction and Recovery Plan (ERRP) which was launched in November 2020. The ERRP aims to build a new economy and unlock South Africa's true economic potential.

It identified tourism as one of the priority areas of intervention in the ERRP, especially with infrastructure development, mass public employment, green economy interventions, the inclusion of women and youth, and skills development.

The TSRP has three strategic themes namely: Reigniting Demand, Rejuvenating Supply and Strengthening Enabling Capability.

The effective implementation of the TSRP is anchored on the following seven strategic interventions:

- Implement norms and standards for safe operation across the tourism value chain to enable safe travel and to rebuild traveller confidence;
- Stimulate domestic demand through targeted initiatives and campaigns;
- Strengthening the supply-side through resource mobilisation and investment facilitation;
- Support for the protection of core tourism infrastructure and assets;
- Execute a global marketing programme to reignite international demand;
- Tourism regional integration; and
- Review the tourism policy to provide enhanced support for sector growth and development.

Tourism Incentive Programme (TIP)

The TIP was established with the aim of stimulating growth and developing the tourism sector by providing financial assistance to privately owned tourism enterprises. The Market Access Support Programme offers partial financial support towards the cost of exhibition space, return airfare, hotel accommodation to qualifying small tourism enterprises that wish to participate and exhibit at selected tourism trade platforms.

The Tourism Grading Support Programme (TGSP) supports small tourism enterprises in gaining greater access to markets, and encourage participation in the tourism grading system respectively. These programmes have since been revised and refined, while two additional programmes, the Green Tourism Incentive Programme (GTIP) and the Tourism Transformation Fund (TTF) were added in 2017 and 2018 respectively to support the responsible tourism and transformation objectives of the department.

The TTF offers a combination of grant funding, debt finance and equity contributions to facilitate capital investment in new and expansion projects in the tourism sector.

Tourism Equity Fund (TEF)

In support of the objectives of enterprise development and transformation, the department will aim to fast-track the piloting of the TEF, which offers for capital investment in the form of grant funding to commercially viable black-owned

tourism enterprises. The TEF is intended to fast-track transformation within the tourism sector. The facility provides a combination of debt finance and grant to facilitate equity acquisition and new project development in the tourism sector by black entrepreneurs.

The fund will also seek to develop skills and ensure that the sector is sufficiently equipped to meet increased demand and expectations by implementing capacity-building programmes such as the wine service training programme, the hospitality youth programme, and food and beverage programmes.

Tourism Grading Support Programme

The TGSP is a joint initiative between NDT and the TGCSA under the broader TIP to encourage more accommodation and MESE (meetings, exhibitions, and special events) establishments to get graded and stay graded under the star grading system.

The programme aims to improve quality and standards of tourism offerings and gives discounts of up to 90% on grading assessment fees for new and renewal grading applications. This is an important incentive as it supports our quality assurance programme that enhances overall visitor experience without putting additional burden on small enterprises.

The department is expected to implement the Women in Tourism (WiT) Programme as a platform to drive initiatives that support the development and empowerment of women in the tourism sector. This platform recognises the challenges faced by women entrepreneurs who are often found at the bottom end of the tourism economic value chain.

Green Tourism Incentive Programme

The GTIP is a resource efficiency incentive programme of the NDT whose objective is to encourage and support private sector tourism enterprises to adopt responsible tourism practices by moving towards the sustainable management and usage of energy and water resources.

The GTIP was launched in 2017 and through grant funding, assists private sector tourism enterprises in reducing the cost of investing in energy and water efficient solutions.

Implementing GTIP funded interventions and identified solutions will not only ensure more responsible operations and environmental benefits, but after the projected payback period, the savings will continue to reduce the overall operational cost of the enterprise with direct and sustained benefits in terms of profitability and improved competitiveness.

The programme is managed by the Industrial Development Corporation (IDC) on behalf of the NDT and all applications and approvals are managed by the IDC. The GTIP broadly offers the following benefits to qualifying tourism enterprises:

- The full cost for a new resource efficiency audit or the full cost for reviewing an existing resource efficiency audit;
- Grant funding to qualifying small and micro enterprises on a sliding scale

from 50% to 90% of the total cost of implementing resource efficiency interventions, which is capped at R1 million; and

- Qualifying enterprises may implement projects in phases in order to better manage their cash flow over a two-year project implementation period.

South African Tourism

The Tourism Act of 2014 mandates SAT to market South Africa internationally and domestically as a preferred tourism and business events destination while monitoring and evaluating the performance of the tourism sector.

In support of this, over the medium-term period, the entity planned to continue prioritising support to domestic, regional and international tourism.

Over the period ahead, SAT planned to focus on efforts to bid to host events such as business meetings, conferences and exhibitions in rural areas and (small) towns to boost the tourism industry in six focal sectors: mining and minerals, manufacturing, travel and tourism, agriculture, finance, and wholesale and retail trade.

Ensuring that visitors enjoy their experience is a key component of the entity's work, and part of SAT's revitalisation plan entails assuring that tourism establishments are of a high standard.

TOURISM IN THE PROVINCES

WESTERN CAPE

With several local attractions and venues, the Western Cape is one of the domestic travel destinations in South Africa preferred by foreign tourists. The province is bordered by two oceans – the Indian Ocean to the south and the Atlantic Ocean to the west. It is also well known for its scenic beauty and a wealth of flora and fauna. With an abundance of hiking trails you have a choice between coastal or mountain hikes.

The Central Karoo features a semi-desert landscape in the centre of the province. It includes the towns of Prince Albert, Beaufort West, and Matjiesfontein; a town that’s a national monument due to the preservation of its Victorian Buildings

The Little Karoo’s fascinating landscape is fashioned almost entirely by water. Its vegetation ranges from lush greenery in the fertile river valleys to short, rugged Karoo plants in the veld.
