Health Awareness Outreach

14 December 2022: Mamelodi West Hostels, Tshwane, Gauteng

The GCIS Information Resource Centre revisited Mamelodi West Hostels to conduct general health awareness targeting male persons on 14 December 2022. This is after the response on the previous campaign yielded a positive response from the hostel and Mamelodi residents. The GCIS together with Mamelodi Hospice, Sungardens Hospice, Multisectoral AIDS Management Response Unit, Wits Reproductive Health and HIV Institute (Wits RHI), and Build Africa Health Services engaged with the public and encourage them to do health screening, take medication, eat healthily and exercise. The teams also shared various information products with the public and encouraged them to spread the message they received from the government.

Below are the pictorial highlights of the event.
