#### RFB 009-2021/2022

**The Opportunity:** The Department of Government Communication and Information System (GCIS) is inviting service providers to submit proposals on the distribution of all GCIS produced products and ad-hoc work focusing more on the fortnightly, GCIS-produced newspaper, *Vuk'uzenzele*.

The successful bidder will be appointed for a contract period of twenty-five months (25 months) from 1 February 2022 – 28 February 2024.

The distribution period will cover the February 2022 edition to February 2024 edition. The service provider to be appointed in January 2022 in order to start planning for the February 2022 edition on time. There will still be administrative work to be done until 31 March 2024 in order to close off the last distribution edition of February 2024.

This is an opportunity for a service provider to join GCIS in the execution of marketing tactics and dissemination of publications containing information that helps to improve the lives of millions of South Africans and encourages citizens to be active participants in this democratic society.

Bidders should therefore consider themselves as entering into a partnership with the government. Bidders should set out to offer value for money, bearing in mind the importance of public service, the current economic climate and the fact that the funds available are derived from the broader South African public, which includes the business community itself.

For the purpose of evaluating prospective bidders for the tender, the case study Annexure A will focus on the GCIS-produced newspaper, *Vuk'uzenzele*.

#### 1. Background:

1.1. Vuk'uzenzele is produced by the GCIS to enhance awareness of government programmes and opportunities for citizens. The newspaper is distributed mainly in communities that have limited access to commercial media. The 16-page, tabloid-format newspaper with a print run of 850 000 copies per edition will be distributed once a month.

- 1.2. The publication supports GCIS efforts to ensure that citizens are empowered with information about opportunities that they can access and use to improve their lives and those of the communities within which they live. The publication is a carrier of government communication campaigns and recruitment vacancies including tenders and notices
- 1.3. Vuk'uzenzele is available free of charge and is published in all official languages, including Braille. Vuk'uzenzele has its own mobile application and a PDF edition is available online at <a href="https://www.vukuzenzele.gov.za">www.vukuzenzele.gov.za</a>
- 1.4. Ad hoc distribution work ranges from products such as Annual Report, Official Guide to South Africa or work briefed in by government departments. The distribution methodologies can differ per product.

# 2. Target Audience of the newspaper

- 2.1. *Vuk'uzenzele* is meant for all South Africans with a specific target audience for the hard copy.
- 2.2. The primary target market for the hard copy gives preference to communities residing in rural areas. Current research findings indicate that rural areas are more predominant in Kwa-Zulu Natal, Limpopo, Mpumalanga, Eastern Cape and in decreasing numbers in North West, Free State, Gauteng, Western and Northern Cape.
- 2.3. Furthermore it should be indicated that according to the Government Segmentation Model (GSM) the hard copy target audience form mainly part of Segment 1 (Rooted Realists) whereas the *Vuk'uzenzele* mobile application and online version are aimed at Segment 2 (City Seekers), Segments 3 (Safety Suburbs), 4 (Metro Mobiles) and 5 (Cosmopolitan Capital) including those having access to internet and data.

# 3. Distribution methodologies and channels

#### 3.1. Knock-and-Drop distribution

- 3.1.1. This is the primary and preferred means of distribution.
- 3.1.2. Research conducted by GCIS indicates that readers/users of the newspaper prefer knock-and-drop as a distribution method. Approximately 94% of the publication is distributed to the target audience through knock-and-drop, with an expected penetration level of 100% of households in specified distribution areas ( with the exception of left over copies in order to round off to the total of 850 000 copies per edition).

3.1.3. Through the use of research tools / systems, it is necessary to have a Geographic Information System (GIS) capable of modelling Census and other associated demographic research data, the appointed distribution service provider must be able to identify the areas and locations of the target market of the publication. This information is critical and must be used to inform the knock and drop distribution strategy.

## 3.2. GCIS Head Office, Provincial and District Offices

- 3.2.1. Approximately 3% of the print run is distributed to selected distribution outlets.
- 3.2.2. Provincial and district offices are located in each province. GCIS Officers linked to these offices receive the newspaper and disseminate it during community outreach programmes, events and workshops with the local communities they service. These offices also have Information Resources Centres (IRC) where the public can access information on government programmes.
- 3.2.3. The GCIS head office is located in Pretoria, it serves as a distribution point for getting the newspaper to individual subscribers including Ministers, Deputy Ministers, Directors-General, media representatives and the GCIS Information Resource Centre (IRC).

#### 3.3. Activations

- 3.3.1. Brand activations are currently playing a key role in increasing awareness levels. Approximately 3% of print run is distributed at taxi ranks.
- 3.3.2. Other distribution methodologies may include hand-outs, courier, freight transportation, postal services etc.

#### CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids<sup>1</sup> invited.
- Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).<sup>2</sup> Collusive bidding is a *pe* se prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
  - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
  - cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

<sup>&</sup>lt;sup>1</sup> Includes price quotations, advertised competitive bids, limited bids and proposals.

<sup>&</sup>lt;sup>2</sup> Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
