

## Chapter 22

# Tourism

Tourism is a fast-growing industry in South Africa, contributing R25 billion to the economy in 2000 (about 4,9% of gross domestic product [GDP]). The number of foreign tourists is growing by around 12% a year. More than 2,8 million foreigners visited South Africa between January and June 2000, during which time expenditure by foreign tourists in South Africa grew by R1,1 billion.

South Africa is a highly attractive tourist destination, full of promise and potential. It is striving to position itself as a world-class contender within this high-growth global industry. Many existing and new tourism businesses have expanded and developed new products, and are becoming increasingly competitive.

Tourism employs an estimated 7% of South Africa's workforce, and is regarded as potentially the largest provider of jobs and earner of foreign exchange. It is projected that in 2010 the South African tourism economy will employ more than 1,2 million people (directly and indirectly).

Tourism is the fourth-largest industry in South Africa, supporting some 700 hotels, 2 800 guest-houses and bed-and-breakfast establishments, and 10 000 restaurants.

---

South Africa's wildlife remains a big attraction for foreign tourists in particular. The country has many game reserves and national parks throughout the country. An exciting development in this field is the establishment of transfrontier parks such as the Kgalagadi; Gaza/Kruger/Gonarezhou; and Lubombo parks.

There are some major strengths operating in South Africa's favour which can facilitate further tourism growth, including

- national tourism assets of incomparable quality in certain segments
- a diversity of tourism products, especially adventure, ecotourism and cultural attractions
- exceptional value for money relative to key competitors, partly owing to foreign exchange rates
- positive global perceptions of peaceful political transition in South Africa.

The fastest-growing segment of tourism in South Africa is ecological tourism (ecotourism), which includes nature photography, bird-watching, botanical studies, snorkelling, hiking and mountaineering.

National and provincial parks in South Africa, as well as private game reserves, involve local communities in the conservation and management of natural resources. These communities are not only benefiting financially from ecotourism, but are also becoming aware of their responsibility to the environment.

The high foreign exchange value of ecotourism enables significant economic values to be assigned to ecological resources, in this way helping to promote their conservation.

Community tourism is becoming increasingly popular, with tourists wanting to experience South Africa in the many rural villages and townships across the country. (See chapter: *Arts and Culture*.)

## Tourism policy

At national level, the Tourism Branch in the Department of Environmental Affairs and Tourism leads and directs tourism policy formulation and implementation towards national tourism growth. It works in partnership with South African Tourism, the provincial tourism authorities, the tourism industry and other relevant stakeholders. It aims to ensure and accelerate the practical delivery of tourism benefits to the broad spectrum of South Africans, while maintaining sustainability and quality of life.

The *White Paper on Tourism* provides a policy framework for tourism development and entails the following programmes:

- a special empowerment programme for capacity-building
- establishing a tourism infrastructure investigations programme that will culminate in identified public infrastructure investment programmes
- mobilising funds to market South Africa aggressively as a tourism destination in international markets based on a focused marketing strategy
- launching a domestic tourism and travel campaign.

A collaborative tourism action (cluster) process, which will provide the framework for taking tourism into the next millennium, was launched. The process aims to achieve collective action among the key stakeholders to enhance tourism marketing, investment, skills and infrastructure development.

The Tourism Forum was established in December 1998 as an advisory body to the Minister. It comprises leadership drawn from government, business, public institutions and labour, with the common purpose of ensuring growth and development of the tourism sector. The Forum agreed to support the following key strategic areas:

- sustainable funding mechanisms
- information systems
- human resource development programmes
- international marketing
- the Welcome Campaign.

The Department has embarked on a legislative reform process to reflect the guidelines set out in the White Paper.

## Legislation

In terms of the Tourism Amendment Bill, which was approved in 2000, the National Registrar of Tour Guides will be created. The Registrar's duties will include preparing a code of conduct and ethics for tour guides, monitoring trends in the tourism industry, and assisting in the growth of the tour guide industry by the training and registration of guides. Ex-prisoners may not be tour guides.

## Poverty-relief funding

About R130 million has been committed towards tourism development projects aimed at creating jobs and alleviating poverty in South Africa.

These projects are categorised into product development, infrastructure development, capacity-building and training, establishment of small, medium and micro-enterprises (SMMEs) and business development projects.

Nine tourism craft projects in 1999/00 and 76 in 2000/01 were set up. These projects, located in all nine provinces, are expected to create 8 600 jobs.

## Marketing strategy

For the first time in the history of the promotion of South African tourism, in 2000/01 the marketing budget more than doubled. Central government contributed R150 million, the Business Trust R50 million and the Tourism Business Council R25 million.

South Africa's marketing strategy includes the following initiatives:

### International Marketing Scheme (ITMAS)

The objective of ITMAS is to partially compensate small to medium-sized business for certain costs incurred in terms of activities designed to promote South African tourism internationally. Of the R4-million fund, more than R1,5 million was spent in 2000 to benefit approximately 682 entrepreneurs. For 2001, part of the fund subsidised 139 black emerging entrepreneurs to attend Indaba 2001 in Durban, Africa's premier annual tourist exhibition. Indaba 2001 was also used as a platform to launch the Emerging Tourism

### Information

The theme of the fourth Tourism Month held in September 2000 was *A Journey of Discovery*. The Month forms part of the Welcome Campaign, which is a partnership between the Department of Environmental Affairs and Tourism, South African Tourism and the Tourism Business Council of South Africa. The Month kicked off with *A Voyage of Discovery*, which started in Cape Town on 1 September and arrived in Johannesburg on 7 September 2000. The purpose of the voyage was to expose selected individuals, including local and international media, to South Africa's hidden treasures.

Tourism Month 2001 featured a competition to encourage citizens to share any personal experiences that have engendered the realisation that South Africa is a diverse and magnificent country. Coined the Share South Africa Challenge, the competition invited people to forward a letter, craft, artwork, photograph or any other form of communication illustrating what makes South Africa special to them.

The central theme of the Month was *To Travel is to See*.

### Information

In August 2000, the South African Minister of Environmental Affairs and Tourism, Mr Valli Moosa, and the Islamic Republic of Iran's Foreign Affairs Minister, Kamal Kharrazi, signed a memorandum of understanding on tourism to promote trade between the two countries.

Entrepreneur of the Year Award – an incentive to increase South African entrepreneurs' participation in the tourism industry and create 'can do' role models.

### Welcome Campaign

Launched in December 1999 by the Minister of Environmental Affairs and Tourism, the Welcome Campaign encourages all South Africans to embrace tourism and share South Africa's rich natural and cultural heritage. Underpinning the Campaign is the message that tourism is the fastest-growing contributor to South Africa's future economic prosperity, and is playing a key role in job creation and socio-economic upliftment.

In February 2001, South African Tourism augmented the Welcome Campaign with an inspiring television and cinema commercial that relayed the message *For every eight tourists one job is created, but sometimes a single tourist can spark an industry*.

Another facet of the Campaign is Tourism Month. This annual promotion, held in September, is designed to promote a culture of tourism amongst all South Africans. It boosts South Africans' interest in both exploring and preserving the country's vast number of diverse tourist sights. To achieve these objectives, South African Tourism co-sponsored a nine-part television documentary series, which highlights each province's lesser-known treasures. The organisation also flighted a tourism awareness radio campaign and developed a programme of tourist-appealing events for each province.

By May 2001, the Campaign had been launched in 25 towns and eight border posts, and had committed 21 corporate sponsors. Through the Business Trust and the National Business Initiative, the Campaign will be underpinned by a customer service excellence programme, the Welcome Host, aimed at improving customer service delivery in the tourism industry.

### International and local marketing

Following the launch of South African Tourism's new corporate identity in October

2000, a R150-million international marketing initiative was launched in London at the World Travel Market in November. Tactics included the London cabby campaign; extensive billboard advertising in Germany and the Netherlands; high-profile print campaigns in the United States (US), United Kingdom (UK), France, Germany and the Netherlands; live broadcasts from South Africa by 15 US radio stations; media tours of South Africa for foreign journalists; and meetings with hundreds of foreign and local stakeholders in the travel industry.

To complement this awareness-building campaign, South African Tourism launched the Circle of Sunshine in London in November 2000. This programme is endorsed by Archbishop Desmond Tutu. The Circle of Sunshine is an expanding network of 'ambassadors' (expatriates, business leaders and celebrities) who have links with South Africa and who want to motivate others to make South Africa a priority holiday destination. It has also been launched in Germany and promoted in South Africa and will be launched in other key markets.

Celebrate South Africa was another vehicle used to promote the country. This six-week festival showcased South Africa's performing talent, arts, crafts, fashion and cuisine from April to May 2001 in London.

#### Information

According to research conducted by Grant Thornton Kessel Feinstein on behalf of South African Tourism, South Africa's Meetings, Incentive, Conference and Exhibitions (MICE) industry contributes R20 billion annually to the country's GDP.

The MICE industry in South Africa is estimated at a total of 101 000 events attended by 11 million participants, and represents almost 15 million delegate days.

The MICE industry in total generates more than 246 000 jobs annually.

Some 39% of international delegates add a pre- or post-event tour to their trip and spend an additional 3,3 days in South Africa. Mpumalanga is the most visited province for these tours.

South Africa ranks number one in Africa as a conference and meeting destination, attracting more than 56% of the total conference market.

#### Tourism Enterprise Programme (TEP)

The Department of Environmental Affairs and Tourism, the Business Trust and Ebony Consulting International launched the R129-million TEP to promote growth in the tourism industry.

The Programme is expected to create about 10 000 jobs in the next few years. The primary objective of the Programme is the development of skills capacity and the participation of 75% of historically disadvantaged enterprises within the tourism economy.

#### Human resource development

Tourism human resource development (education and training) is considered as one of the pillars of the development of a new responsible tourism culture in South Africa.

The Department has supported the full introduction of travel and tourism and hospitality studies as a subject in schools by finalising the curricula in pilot schools.

Travel and tourism was introduced in 2000 in all schools wanting to offer the subject from grades 10 to 12.

The Tourism and Hospitality Education and Training Authority (THETA) comprises the following sectors:

- hotels
- provision of short-stay accommodation
- restaurants, bars, canteens and other catering services
- travel agencies and related activities
- destination management
- motor car rental services
- conservation, game parks and zoological establishments
- gaming and gambling.

By May 2001, THETA had made considerable progress. Some 7 831 unit standards had been achieved by learners, 5 454 national qualifications had been achieved, and 68 training practitioners had been trained. The South African business community and the Government have launched a R115-million project to enhance the industry and train 15 000 people, most of them unemployed, over the next four years. The Tourism Learnership Project aims to elevate skills, service and productivity levels in

the tourism industry. The Project forms part of a broader tourism initiative by the Business Trust – an initiative set up by a group of company chairpersons and chief executive officers in a bid to reflect business's commitment to South Africa.

At the end of October 2000, the Minister of Environmental Affairs and Tourism accepted a cheque for R15,7 million from the Spanish Government to set up the South African Tourism Institute (SATI), which will spearhead tourism education and skills training. SATI will specifically focus on upgrading the skills of teachers, trainers and assessors within the tourism industry.

The first part of the initiative will be introduced at school level by way of a specifically developed knowledge and skills transfer programme aimed at schoolteachers. A further training programme will be implemented to develop the skills of approximately 3 000 on-the-job trainers and assessors working within the tourism field. Both groups will impart knowledge to learners as part of a cascading tourism education programme.

A substantial portion of the Spanish funds will be put to use in the setting up of South Africa's first Tourism Learning Resource Centre.

## Hints for the tourist

Every person wishing to enter South Africa must be in possession of a valid passport for travel to South Africa and, where necessary, a visa. Enquiries can be directed to South African diplomatic representatives abroad or the Department of Home Affairs in Pretoria. Visas are issued free of charge. Visitors who intend travelling to South Africa's neighbouring countries and back into South Africa are advised to apply for multiple-entry visas.

### Information

The Cape Grace Hotel, situated on Cape Town's Waterfront, was rated the number one hotel in the world at the *Condé Nast Traveller's* 2000 Reader Choice Awards in September 2000.

Passport-holders of certain countries are exempt from visa requirements. Tourists must satisfy immigration officers that they have the means to support themselves during their stay and that they are in possession of return or onward tickets. They must also have valid international health certificates.

Visitors from the yellow-fever belt in Africa and the US, as well as those who travel through or disembark in these areas, have to be inoculated against the disease.

Malaria is endemic to parts of KwaZulu-Natal, Mpumalanga and the Northern Province. It is essential to take precautions when visiting these areas.

Foreign tourists visiting South Africa can have their value-added tax (VAT) refunded, provided the value of the items purchased exceeds R20. VAT is refunded on departure at the point of exit.

South Africa's transport infrastructure – airlines, railroads, luxury touring buses (coaches) and cars – is such that tourists can travel comfortably and quickly from their port of entry to any other part of the country. A number of international airlines, including South African Airways (SAA), operate regular scheduled flights to and from South Africa. Several domestic airlines operate in the country. There are also mainline trains to all parts of the country. (See chapter: *Transport*.)

A brochure entitled *Helpful Hints to Make Your Stay Enjoyable and Safe* is distributed to tourists at international airports.

## Accommodation

The tourist accommodation industry in South Africa provides a wide spectrum of accommodation, from formal hotels to informal holiday flats and cottages, game lodges and reserves, guest-houses, youth hostels and bed-and-breakfast establishments.

A variety of promotional material on South Africa is available. Comprehensive guides and maps cover all the regions and aspects of interest to tourists, including accommodation. Various useful tourism websites can be found on the Internet. (See also Suggested reading, p 548)

The Tourism Grading Council of South Africa was appointed in September 2000 to look at the standards in the hospitality and accommodation industry. The Council has established a Secretariat to drive the consultation process towards developing and determining a new regulatory framework for the grading and classification of all establishments within the various sections of the tourism industry.

The new and voluntary grading system will use the internationally recognised star insignia to rate accommodation establishments initially, and will later be extended to relevant businesses in classified sectors of the tourism industry. Once graded, establishments will be encouraged to use the star system for marketing and advertising purposes. Grading assessors from all over South Africa will undergo training to receive the National Certificate in Tourism Grading. The awarding of such a qualification is a world-first. Assessors will then be accredited with THETA and registered with the Grading Council before being recommended to the industry. Larger group hotels with their own internal assessors will also have them accredited with THETA. Independent auditors will be appointed by the Council to handle random audits. These auditors will also assist in ensuring that the assessors adhere to a Code of Conduct.

Previously graded and accredited accommodation establishments will be given a window of opportunity in order for them to decide whether they wish to reapply or to terminate their current grading. Star grading will be linked to a consumer feedback system. This will be a national undertaking never done before in South Africa.

#### Information

In January 2001, the winners of a competition to find South Africa's favourite city were announced. The competition was run by Engen as part of its association with the Welcome Campaign. South Africans voted Cape Town as their favourite city with Durban in second place. Knysna was voted best town, with Mossel Bay second.

## Tourism in the provinces

### Western Cape

According to a South African Tourism survey, the Western Cape – with the seven most popular attractions – continues to dominate the list of favoured destinations for foreigners. Whale-watching drew 17% of visitors, making it more popular than the Kruger National Park, which drew 16% of all foreign visitors in August 1999.

It is estimated that tourism accounts for about 9% of the Western Cape's regional product and employs a similar proportion of the formal workforce.

The Western Cape Tourism Board serves six different regions, namely the Cape Metropole, Winelands and Breede River, Overberg, West Coast, Garden Route, and Klein Karoo and Central Karoo regions.

### Cape Metropolitan Area

The Cape Metropolitan Area is divided into six different local areas, namely Cape Town, the South Peninsula, Blaauwberg, Helderberg, Tygerberg and Oostenberg. Tourist life in the city of **Cape Town** centres around the Victoria & Alfred Waterfront, a working harbour offering everything from upmarket shopping malls, arts and craft markets, theatres and live music, to museums.

Major attractions in the city include the Bo-Kaap Museum, the Castle of Good Hope, the Company's Garden, the District Six Museum, flea markets, the Grand Parade, the Houses of Parliament, the South African Cultural History Museum and the South African National Gallery.

Also worth a visit are the historical buildings in the Bo-Kaap and District Six.

Air flips and trips are available, as well as many boat and yacht trips from Table Bay harbour, including trips to **Robben Island** (proclaimed a World Heritage Site and also the place where former President Nelson Mandela was imprisoned for a number of years), which is fast becoming one of South Africa's premier tourist attractions.

A new R24-million departure terminal for Robben Island, the Nelson Mandela Gateway, is planned as part of a new R850-million Waterfront development. The Gateway is expected to increase the number of visitors to the Island from 1 200 a day in summer to 1 800.

Table Mountain is a popular site for visitors and provides the majestic backdrop to the vibrant and friendly Mother City. It can be reached by an ultra-modern cableway. The Mountain forms part of the Cape Peninsula National Park.

**Newlands** is home to the Kirstenbosch National Botanical Garden. In summer, various open-air concerts are held, and visitors can bring their own picnic baskets.

At the South African Rugby Museum, visitors can follow the history of the sport back to 1891.

The Rhodes Memorial is situated in **Rondebosch** on the slopes of Table Mountain. It was built of granite from the Mountain as a tribute to the memory of Cecil John Rhodes, Prime Minister of the Cape from 1890 to 1896.

### Information

Southern Africa has become one of the most popular big-game hunting regions in the world. It offers a great variety to trophy hunters, including the Big Five, namely elephant, white rhino, lion, leopard and buffalo, as well as 26 species of antelope.

Hunting proclamations of the various provinces differ and are promulgated annually. The hunting season normally runs during the winter months, from May 1 to the end of July.

Most species may be hunted legally by non-landowners during the hunting season, provided that they have the written consent of the landowner and a valid hunting permit issued by the appropriate conservation authority.

Trophy hunting by overseas clients is subject to uniform legislation throughout South Africa, and all hunters are required to be accompanied by registered professional hunters and have their hunts arranged by approved hunting outfitters.

All the provinces provide schedules of ordinary, protected and specially-protected game. Ordinary game may be hunted under licence during an open season. Protected game may be hunted only under permit and licence, the fee depending on the species. Specially protected game, which includes grysbok, klipspringer, red hartebeest, giraffe, black rhinoceros, pangolin and antbear, may not be hunted at all.

The University of Cape Town is worth a visit for its historic Middle Campus and many buildings designed by Sir Herbert Baker.

Visitors are allowed to walk through the large landscaped aviaries.

Backdropped by the magnificent Hottentots Holland and Helderberg mountains, the Helderberg region is a paradise for tourists. Hiking and bird-watching in the Helderberg Nature Reserve, the historic Vergelegen Wine Farm and the Helderberg Wine Route offer something for everyone. At **Mossel Bay**, the Point, a well-liked area for surfers, also features a natural pool formed by rock – a popular swimming place at low tide. The St Blaize trail starts here and it is the ideal spot to watch the whales and dolphins at play in season.

The harbour at Mossel Bay is one of the most modern commercial and recreational harbours on the southern Cape coastline. The Mossgas Information Centre informs visitors about the project and the production of synthetic fuels from Mossel Bay's offshore gas

fields. Other attractions include the Attequas Kloof Pass, Anglo-Boer/South African War blockhouses and the Bartholomew Dias complex.

**Prince Albert** is a beautiful small town. The Fransie Pienaar Cultural History Museum includes an exhibition relating to early 19th century mining activities. Local traditional *witblits* (white lightning) is distilled and sold here. Prince Albert is the closest town by road to **Die Hel** in Gamkaskloof. Some 150 years ago, *trekboers* made this remote valley in the Swartberg Mountains their home. Today, it is a nature reserve administered by Cape Nature

Conservation. The Swartberg Pass, which is a gravel road, is one of the most spectacular in Africa.

### **The Winelands region**

The Winelands region comprises many of the wine-growing areas of the Cape. The wine routes in the Western Cape are among the most popular tourist attractions in South Africa.

**Franschhoek**, first known as *Die Oliphantshoek*, was renamed after the arrival of the French Huguenots. The Huguenot Monument was built in 1938 to commemorate the 250th anniversary of their arrival, and the Huguenot Museum depicts the genealogical history of these families. The Franschhoek Wine Route has about 20 members. Visitors can also enjoy various hiking trails and historical walks.

**Paarl** lies between the second-largest granite rock in the world and the Du Toit's Kloof Mountains, and is famous for its unique architectural heritage confined to two square kilometres. The *Afrikaanse Taalmonument* is situated on the slopes of the Paarl Mountain, and the *Afrikaanse Taalmuseum* is in the centre of the town. Visitors can also go to Butterfly World and the Arboretum with over 700 species of trees. There are also various arts and crafts shops. Dorp Street consists of one of the longest rows of old buildings still existing in the country. The Stellenbosch Village Museum consists of four homesteads and gardens ranging from the late 17th to the middle 19th centuries. The Simon van der Stel Festival takes place in October each year to commemorate the birthday of the founder of Stellenbosch. There are a number of nature reserves in the area. At the Oude Libertas Amphitheatre, visitors can enjoy concerts, ballets and other entertainment staged from

December to March. The Stellenbosch Wine Route has more than 40 members.

Strawberries, raspberries, youngberries and Cape gooseberries can be picked by visitors on Wellington's own berry farm. There are various hiking and horse trails, as well as leather, fruit, historical, religious and educational tours. The Wellington Wine Route comprises seven members.

The well-known Spier Wine Estate was established in 1679. Visitors to the Estate can now enjoy a close encounter with Inca, Shadow and Spier, three of the five tame cheetahs who live there. In keeping with an ongoing pledge to conserve and preserve South Africa's natural heritage, Spier has allocated land on the Estate to a group of hand-raised cheetahs in the care of Cheetah Outreach. The Himeville Nature Reserve has two lakes stocked with trout. The Swamp Nature Reserve close by attracts a variety of waterfowl, including the rare wattled crane.

The Ndedema Gorge is located in the Mdedelelo Wilderness Area near Cathedral Peak, and contains good examples of Khoi and San art.

Sani Pass is the only road between KwaZulu-Natal and the Kingdom of Lesotho. The Giant's Cup Hiking Trail, starting at the foot of

the Pass, is described as one of South Africa's finest. Giant's Castle Game Reserve is especially known for the more than 5 000 San paintings on the walls of caves. The Bushman Site Museum is well worth a visit. The Reserve is a bird-watcher's paradise, and a bird hide facilitates the viewing of cliff-dwelling species.

The Royal Natal National Park offers many scenic highlights, including the Amphitheatre, Mont-aux-Sources and the Tugela Falls.

The Drakensberg mountain range forms the north-western border of KwaZulu-Natal. A variety of wildlife including antelope, predators, small mammals and reptiles can be seen here.

The whole area is a bird sanctuary, and the endangered lammergeier (or bearded vulture) can be spotted. The highest concentration of walks and trails in South Africa is found here. Many of these trails lead to sites once inhabited by the San, whose legacy of rock art can be viewed. Accommodation ranges from self-catering establishments and caravan parks to top-class hotels.

### **Northern Natal and battlefields**

White and black rhino, elephant, crocodile, giraffe, cheetah and leopard, among others, can be seen at the Itala Game Reserve.

The KwaZulu-Natal Battlefields Route has the highest concentration of battlefields and related military sites in South Africa. The Battlefields

Route starts at Estcourt and winds north through Colenso and Ladysmith to Newcastle and Volksrust, and eastwards to Utrecht, Glencoe, Dundee, Nqutu, Paulpietersburg, Vryheid, Babanango and Ulundi.

All the towns along the Route have their unique charm and range of attractions: arts and crafts, scenic hiking trails, farm resorts, Zulu culture, and roadside stalls. Game-viewing, natural hot springs, horse trails and water sport can also be enjoyed.

The Chelmsford Nature Reserve near **Newcastle** is a bird-watcher's paradise. Powerboating and carp-fishing are added attractions. Game includes springbok, zebra, rhino and blesbok. Other interesting places to visit are Majuba Hill and O'Neill's Cottage.

The Ladysmith Siege Museum provides insight into the Battles of Colenso, Spioenkop, Vaalkrans and Tugela Heights. Guided tours to nearby battlefields such as Wagon Hill are arranged by museum staff. Other attractions in Ladysmith include the statue of Gandhi, the All Saints Church, the Soofi Mosque and the Spioenkop Dam and Nature Reserve.

Near **Dundee**, tourists can visit various battlefields, including Blood River, Isandlwana, Rorke's Drift and Talana. The Talana Museum depicts various facets of the coal industry, as well as local Zulu, Boer and British history. Rorke's Drift was the setting for one of the most famous battles of the War. The main attraction is the Rorke's Drift Battle Museum.
