

# Tourism

Tourism has taken its place as a vital contributor to economic growth, catapulting South Africa from a pariah prior to 1994 to one of the fastest-growing and most desired leisure holiday destinations in the world.

The inflow of tourists to South Africa is the result of the success of policies aimed at entrenching South Africa's status as a major international tourism and business events destination.

The purpose of the National Department of Tourism (NDT) is to be a catalyst for tourism growth and development in South Africa, and to drive the National Tourism Sector Strategy (NTSS).

To ensure the achievement of the sector's targets, the department supports the implementation of the NTSS and work, towards increasing the number of foreign arrivals from 9 933 966 in 2009 to 12 068 030 by 2015, and increasing the number of domestic tourists from 14 600 000 in 2009 to 16 000 000 by 2015.

In 2013/14, international tourist arrivals in South Africa grew by 10,2% year on year to almost 9,2 million.

Europe remained the highest source of tourists, with arrivals growing by 9,5% year on year to 1 396 978 tourists.

The United Kingdom (UK) was South Africa's biggest overseas tourism market: 438 023 UK tourists travelled to South Africa.

The United States of America (USA) was South Africa's second biggest overseas market, with 326 643 tourists, followed by Germany with 266 333 tourists.

France is now South Africa's fifth biggest overseas market with 122 244 tourists.

China became South Africa's fourth biggest overseas market at 132 334 tourists in 2013, up 55,9% on 2011 figures, while Indian arrivals grew by 18,2% to 106 774 visitors, and Brazilian arrivals grew by 44,7% to 78 376 visitors.

Africa remained the pillar of South Africa's tourism economy, with growth from the continent up by 8,5%.

From an African continental perspective, Nigeria and Tanzania were two of the continent's biggest growth markets during 2013/14, with tourist arrivals from these two countries growing by 37,5% and 45,8% respectively.

Business tourism has also increased, especially since the establishment of the country's first South African National Convention Bureau (SANCB) as a business unit under South African Tourism (SAT).

In the coming five years, South Africa will host over 200 international conferences, which are estimated to attract 300 000 delegates and provide an economic boost of more than R1,6 billion.

Foreign tourists spent a total of R76,4 billion in South Africa in 2013.

## Legislation and policies

The NDT operates under the following legislation and policies:

The Tourism Act, 2014 (Act 3 of 2014) provides for the development and promotion of sustainable tourism for the benefit of South Africa, its residents and its visitors. It also provides for the continued existence of the South African Tourism Board, the establishment of the Tourism Grading Council, and the regulation of the tourist guide profession, among other things.

The Act aims to:

- promote the practising of responsible tourism for the benefit of South Africa and for the enjoyment of all its residents and foreign visitors
- provide for the effective domestic and international marketing of South Africa as a tourist destination
- promote quality tourism products and services
- promote growth in and development of the tourism sector
- enhance cooperation and coordination between all spheres of government in developing and managing tourism.

In terms of the Act, responsible tourism is tourism which:

- seeks to avoid negative economic, environmental and social impacts
- generates greater economic benefits for local people, enhances the well-being of host communities and improves working conditions and access to the tourism sector
- involves local people in decisions that affect their lives
- makes positive contributions to the conservation of natural and cultural heritage and to the maintenance of the world's diversity
- provides enjoyable experiences for tourists through meaningful connections with local people and a greater understanding of local cultural, social and environmental issues
- provides access for physically challenged people
- is culturally sensitive, engenders respect between tourists and hosts and builds local pride and confidence.
- The Tourism Act, 1993 (Act 72 of 1993), provides for:
  - promoting tourism to and in South Africa
  - regulating and rationalising the tourism industry
  - implementing measures aimed at the maintenance and enhancement of the standards of facilities and services hired out or made available to tourists

- coordinating and rationalising the activities of people who are active in the tourism industry
- establishing a board with legal powers
- authorising the Minister of Tourism to establish a grading and classification scheme in respect of accommodation establishments
- authorising the Minister to establish schemes for prescribed sectors of the tourism industry
- registering tourist guides
- prohibiting any person to act for gain as a tourist guide unless he or she has been registered as a tourist guide in terms of the Act.

## Budget and funding

The NTSS seeks to increase tourism's total direct and indirect contribution to the economy from R189,4 billion in 2009 to R318,2 billion in 2015 and R499 billion in 2020.

The department received additional allocations of R4,7 million in 2013/14 and R5,6 million in 2014/15 for improved conditions of service. A Cabinet-approved baseline cut of R667 000 in 2013/14 and R831 000 in 2014/15 was also made. Between 2012/13 and 2014/15, R29,6 million was allocated for spending on consultants to support the department's internal audit unit.

A few years ago, the NDT made the strategic decision to invest in the emerging markets in Africa, South America and in Asia. The results were astounding. In light of this, the department will invest R218 million over three years to grow South Africa's share of this market. It also opened offices in Angola, Kenya and Nigeria in 2013, and will expand its footprint to Ghana, Tanzania and Uganda through a hub strategy.

The department will continue to fund the Tourism Enterprise Partnership (TEP) with R25 million to support small, medium and macro enterprises (SMMEs) development in 2013/14.

In 2013/14, R3 million was allocated to roll out the Tourism Accelerated Apprenticeship Programme (TAAP). Consequently, 100 Further Education and Training College interns were recruited and placed at various institutions countrywide.

## Role players

### South African Tourism

SAT is mandated to market South Africa internationally as a preferred tourism destination to maximise the economic potential of tourism for the country and its people.

SAT encourages the trade to take domestic tourism seriously; to target products, experiences and marketing campaigns at domestic tourists and to creatively manage products and services

to meet the specific consumer needs of domestic tourists.

The “It’s Here, Vaya Mzansi” campaign is an industry-wide project that relies on collaboration and partnership from the wider industry for success and to grow domestic leisure travel to meet targets. SAT partnered with more than 50 tourism companies in South Africa to create discount vouchers ranging from tour-operator services, accommodation and experiences including wine tastings, canopy tours and hiking.

In 2013, SAT opened fully-fledged offices in Angola, Brazil, Kenya and Nigeria, while also expanding its marketing presence and partnerships with the trade in South Korea, Ghana, Russia, Scandinavia, Shanghai in China, Tanzania and Uganda.

In 2014, SAT will introduce a global hub strategy created to effectively deliver the destination marketing message with a wider reach than ever before.

### Tourism Enterprise Partnership

TEP is a non-profit company that facilitates the growth, development and sustainability of small tourism businesses. This is achieved through a number of products and services that provide hands-on, step-by-step support and guidance, ultimately leading to improved product quality, operational efficiency and market reach.

Funding for TEP’s small tourism business development interventions is provided by the NDT as well as the Business Trust, the Tourism Micro-enterprises Support Fund (a sister company that provides funding specifically for the support of micro enterprises), global financial services company Credit Suisse, and the Eastern Cape Development Corporation.

### Tourism Indaba

The Tourism Indaba that takes place in Durban annually is one of the largest tourism marketing events in Africa and one of the top three events of its kind in the world.

It showcases a wide variety of southern Africa’s best tourism products and attracts international visitors and media from across the world.

The 2013 Tourism Indaba held from 11 to 14 May provided an opportunity to showcase South Africa and its people. To bolster growth, government has identified core markets, investment markets and tactical markets across regional Africa, the Americas, Asia and Australasia, as well as in Europe.

In positioning South Africa as a globally competitive tourism destination, government raised the profile of the country’s heritage and cultural tourism assets. The heritage and cultural pavilion at the Tourism Indaba profiled and

promoted the eight world heritage sites in South Africa.

Preliminary figures showed that over R40 million was injected into the Durban economy by the four-day 2013 Tourism Indaba. The number of visitors exceeded 11 000.

Indaba 2013 featured a number of additions that added value. One of these was Indaba Connect, which used new technology to enable thousands of delegates to connect and exchange information electronically. More than 11 000 users had been activated on Indaba Connect, making 136 585 connections among them and sharing 14 000 documents.

The technology brought significant green benefits and it was estimated that Indaba Connect had potentially saved 230 trees by minimising the reams of printed collateral and business cards normally available.

Another innovation, the Indaba Matchmaking Diary, proved an invaluable networking tool, with 2 744 meetings facilitated through this platform.

In another development, South Africa’s benchmark-setting integrated marketing strategy has been profiled and celebrated with Meet South Africa iAmbassador blogger coverage of the country reaching 55 million people in one week on Twitter alone, and 15 of the world’s most followed travel and lifestyle bloggers giving the destination phenomenal authentic endorsements and recommendations.

Indaba 2013 stand winners were named in different categories:

- Tour operator Tourvest Destination Management walked away with Platinum, while Gold and Silver went to Gauteng Tourism Signature Collection and Calypso Travels respectively.
- Transportation best stands awards went to Springbok Atlas (Platinum), Europcar (Gold) and Avis Rent-a-Car (Silver).
- Accommodation best stand winners were Leading Hotels of the World (Platinum), Molori Safari Lodge (Gold) and Tsogo Sun (Silver).

### Meetings Africa

South Africa is now one of the world’s emerging giants in business-event hosting. Meetings Africa 2013 took the first in a series of steps to include other destinations on the continent to eventually make Meetings Africa the single most influential and biggest pan-African business event trade exhibition on the continent.

Meetings Africa 2013 was held from 18 to 20 February and took on a distinct and proudly pan-African flavour under the theme of “Advancing Africa Together.” The SANCB hosted Meetings Africa for the first time.

The SANCB introduced several changes to the Meetings Africa format to ensure greater opportunities for delegates to do business.

For the SANCB, the strategy was to broaden the opportunity to make Meetings Africa a truly African showcase, to grow the capacity of the collective African business events industry and transform regional Africa into a business event powerhouse.

Over 50 African association buyers, 200 international hosted buyers and 200 local corporate and government buyers attended.

## Tourism, Hospitality and Sport Education and Training Authority (Theta)

Theta is the sector education and training authority (Seta) established under the Skills Development Act, 1998 (Act 97 of 1998), for the tourism, hospitality and sport economic sector. Theta comprises the following chambers:

- hospitality
- conservation and tourist guiding
- sport, recreation and fitness
- tourism and travel services
- gaming and lotteries.

Every chamber has its own committee that helps Theta to identify industry needs.

Theta's main function is to contribute to raising skills or bringing skills to the employed or those wanting to be employed in their sector. This is done by ensuring people learn skills needed by employers and communities.

## Tourism Grading Council of South Africa (TGCSA)

The TGCSA's grading system is South Africa's only officially recognised system for the star grading of accommodation establishments.

Establishments are assessed according to the type of accommodation they provide. There are nine types of establishments:

- formal service accommodation (hotels, lodges)
- self-catering
- backpacker
- hostelling
- caravans
- camping
- meetings
- exhibitions
- special events.

## Programmes and projects

### National Tourism Sector Strategy (NTSS)

The vision of the NTSS is to position South Africa as one of the top 20 tourism destinations global by 2020.

The overall goal of the strategy is to drive the tourism economy, enhance visitor experiences, position South Africa as a destination of choice and sustain good governance in the industry.

The key focus areas of the NTSS are arrivals, gross domestic product (GDP) and job creation. The tourism sector is working towards creating 225 000 jobs by 2020.

To achieve all of its objectives, the NTSS focuses on domestic tourism with the intention to increase the number of domestic trips from 30,9 million in 2009 to 54 million by 2020.

Regional tourism is also being targeted with South Africa looking to take advantage of hitherto untapped markets such as outbound tourists.

This strategy represents the department's commitment to intelligent planning and policy formulation. It was developed over two years in close collaboration with local and provincial government, an advisory panel of top industry minds, representatives of various professional bodies, academia, tourism marketing agencies, civil society and the broader public.

The NTSS is a document that the entire sector is committed to and includes coordinated and credible targets. The strategy rests on three pillars, namely:

- driving the tourism economy
- enhancing visitor experiences
- ensuring sustainability and good governance in the industry.

### Tourism Support Programme (TSP)

The TSP is a reimbursable cash grant designed to support the setting up of tourism-related businesses. A key objective is to spread tourism investment across South Africa, while job creation is also a priority. It was introduced in 2008 and was set to end in 2014. A grant of between 15% and 30% of the investment costs for start-up and expansion was offered. Some 545 applications had been approved with an incentive value of R1,1 billion.

Originally managed by the Department of Trade and Industry, the TSP was transferred to the NDT in April 2013 in line with the Industrial Policy Action Plan 2011/12 – 2013/14.

This means that the department will in future also develop and implement an incentive that is better aligned with the current strategic priorities of the tourism sector.

### Hospitality Youth Initiative (HYI)

The HYI is aimed at helping unemployed youth to find meaningful employment in the hospitality industry at entry level.

The programme targets unemployed youths between the ages of 18 and 35 who have a matric qualification.

The programme provides one month's theoretical training for entry into the hospitality industry.

Training focuses on communication, life skills, customer care, leadership and HIV and Aids management.

On completing the first phase, trainees are placed in tourism establishments where they receive on-the-job training with internationally accepted standards as laid down by the hospitality industry.

At the end of the training, beneficiaries receive certificates of competence and can be absorbed by hospitality establishments.

In 2012/13, 500 young people graduated as chefs and 120 were placed with established hospitality institutions.

Altogether 300 of them have enrolled for second-level training, which is equivalent to National Qualification Framework Level 5 (national diploma) and, owing to the success of the programme, another 500 young people were for the first time enrolled in the programme for 2013/14.

### National Tourism Service Excellence Requirements

The National Tourism Service Excellence Requirements are aimed at improving and maintaining service levels at all service touch points in the tourism value chain as well as guiding the sector to achieve the NTSS objective of positioning South Africa as one of the top 20 global tourism destinations.

Previously the tourism value chain in South Africa did not have integrated standards and norms, and this contributed to inconsistencies in service levels.

Research conducted in 2009 identified inconsistent service levels and a lacking culture of complaining about poor service as critical challenges in the sector.

The Service Excellence Requirements will provide a yardstick to be used by all tourism service providers in the value chain to deliver quality service and experiences that equal or surpass world standards.

The South African Bureau of Standards developed the standards on behalf of the tourism sector and benchmarked them against international requirements. The requirements have four key focus areas, namely marketing, products, delivery of service, and monitoring and evaluation.

The department also introduced a National Service Excellence campaign under the theme "Excellent Service Starts with Me". The campaign is aimed at creating awareness and educating consumers and tourism product owners about the requirements.

### National Minimum Standard for Responsible Tourism (NMSRT)

Responsible tourism is a tourism management strategy in which the tourism sector and tourists take responsibility protecting and conserving the natural environment, respecting and conserving, for local cultures and ways of life, and contribute to stronger local economies and a better quality of life for local people.

It includes providing better holiday experiences for guests and good business opportunities for tourism enterprises. The concept of responsible tourism is gaining ground as a newly emerging trend worldwide.

The NDT in partnership with tourism stakeholders and the private sector, particularly accreditation agencies, developed the NMSRT.

South Africa has taken the lead on the continent by publishing a set of national minimum standards that are aligned with international standard ISO/IEC 17011.

The NMSRT comprises 41 criteria divided into four categories, namely:

- sustainable operations and management
- economic criteria
- social and cultural criteria
- environmental criteria.

### Lilizela/Imvelo Tourism Awards

In May 2013, the Minister of Tourism launched the Lilizela Awards, which recognise excellence across the tourism industry. Lilizela is a Nguni word which means to ululate (an act of congratulations when someone has done something well).

The awards recognise and reward tourism players and businesses who work passionately and with pride to deliver a world-class product and service, and whose delivery grows South Africa's competitiveness as a global destination.

The awards acknowledge and applaud the efforts of people whose work sets global benchmarks in excellence. They will be rewarded across a number of broad categories: Service Excellence, Emerging Entrepreneur, Tourism Responsibility and Sustainability, Universal

Accessibility and the Minister's Award.

The award categories are:

- Minister's Award: Recognises outstanding, unique, impactful people, events or organisations that have performed in a manner that urges the industry closer to tourism's 2020 vision (to grow arrivals to 15 million and create 225 000 new jobs and increase the direct and indirect contribution to the GDP from R189,4 billion 2009 to R499 billion.
- Service Excellence Award: A large portion of the decisions for this award is based on guests' feedback. Measure have been put in place to allow the public to cast their vote. The accommodation sector will be recognised during this first year, with the other service providers and operators to follow.
- Emerging Tourism Entrepreneur of the Year Award: This award recognises black-owned SMMEs that have achieved notable success since starting up.
- Universal Accessibility Award: Facilities and services at accommodation establishments and venues that are accessible for people with disabilities, using the TGCSA criteria which were introduced with the normal quality grading criteria back in 2010.
- Sustainability Award: This award recognises businesses that best incorporate the three development and sustainability pillars into their business operating models.

### International tourism South African Tourism

SAT's five-year plan contains five different programmes aimed at:

- increasing international arrivals, focusing on regional Africa
- promoting global visibility of the South African brand
- ensuring delivery of quality experiences using global best-practice grading systems
- ensuring quality execution of approved business plans and budgets
- providing the human resources, systems and structures to support the execution of SAT's business plans and budgets.

In an effort to make South Africa a most preferred tourism brand by 2014 and obtaining brand awareness of at least 79% in target markets SAT looked at three criteria: brand knowledge, brand journey and the conversion of positive brand awareness to sales. SAT aims to grade 9 000 properties by 2016/17.

In May 2013, South Africa was voted the top destination by members of the world's largest travel and lifestyle social network "Where Are You Now?" in the site's dream destination competition.

## Guidelines for international tourists

Every international traveller to South Africa must have a valid passport and, where necessary, a visa.

The Immigration Act, 2002 (Act 13 of 2002), stipulates that all visitors to South Africa are required to have at least one blank page (both back and front) in their passport to enable the entry visa to be issued.

If there is insufficient space in the passport, entry will be denied.

Enquiries may be directed to South African diplomatic representatives abroad or to the Department of Home Affairs in Pretoria. Visas are issued free of charge.

Visitors who intend travelling between South Africa and neighbouring countries are advised to apply for multiple-entry visas.

Passport holders of certain countries are exempt from visa requirements.

Tourists must satisfy immigration officers that they have the means to support themselves during their stay and that they have return or onward tickets. They must also have valid international health certificates.

Visitors from the yellow-fever belt in Africa and the USA, and those who travel through or disembark in these areas, have to be inoculated against the disease.

Malaria is endemic to parts of KwaZulu-Natal, Mpumalanga and Limpopo. It is essential to take anti-malaria precautions when visiting these areas.

Foreign tourists visiting South Africa can have their value-added tax (VAT) refunded, provided the value of the items purchased exceeds R20. VAT is refunded on departure at the point of exit.

South Africa's means of transport infrastructure – airlines, railroads, luxury touring buses (coaches) and motor cars – is such that tourists can travel comfortably and quickly from their port of entry to any part of the country.

South African Airways, as well as a number of international airlines, operate regular scheduled flights to and from South Africa.

Several domestic airlines operate in the country.

There are also mainline trains to all parts of the country.

There was an 11,4% increase in the number of visitors to SANParks from 389 624 to 434 216 in 2012/13. Year-end results in 2013 revealed an overall occupancy rate of 70%; there were 527 755; and 696 234 campers. Increases in international markets were seen from Germany (16,9%), France (17,6%) and the United States of America (7,2%). SANParks has seen R848,9 million returns in tourism income in 2013.

The tourist-accommodation industry in South Africa provides a wide spectrum of accommodation, from formal hotels to informal holiday flats and cottages, game lodges and reserves, guest houses, youth hostels and bed-and-breakfast establishments.

## Tourist guiding

The NDT entered into an agreement with the Culture, Arts, Tourism and Hospitality Sports Seta (Cathssseta) which seeks to prioritise tourist-guide training and development throughout South Africa.

The memorandum of understanding with Cathssseta also addresses areas of transformation within the tourist guiding sector, as well as the maintenance of standards through quality training and effective skills development programmes aimed at existing tourist guides.

The department engaged the Road Traffic Management Corporation to educate traffic officials throughout South Africa on how to enforce the legislation pertaining to tourist guides.

The NDT will also be working closely with the Department of Transport with a view to ensuring enforcement of tourist-guiding issues relating to tour operators and related regulations in the National Land Transport Act, 2009 (Act 5 of 2009).

The department wants industry bodies that are committed to growing the tourist-guiding sector and elevating the profession to enter into formal agreements with stakeholder bodies that share department's vision.

The department undertook a process to review the *Regulations in Respect of Tourist Guiding*.

This included wide consultations with tourist guides and key stakeholders throughout the country to improve existing processes and systems to register tourist guides and ensure compliance within the sector.

The department is working with the provinces to establish a centralised database of tourist guides.

Once a viable database is in place, the department will be able to engage the departments of home affairs and justice, and other relevant authorities to ensure that the information received from the provinces is subjected to a vetting process as prescribed in the Tourism Act of 2014.

The training programmes for tourist guides taking place in provinces focus on skills development for existing tourist guides to make them more marketable and employable within the sector.

## Tourism niche markets

### Domestic tourism (*Vaya Mzansi*)

To increase domestic tourism, the department announced the new initiatives for 2013:

- Investing in new partnerships and relationships, including between provincial tourism marketers and SAT.
- Investing in a new marketing campaign for domestic tourists. This was launched during Tourism Month in September 2013 and targeted a broad cross-section of the South African population.

### Adventure tourism

The country's diverse terrain, together with an ideal climate for outdoor activities, makes it perfect for the adventure tourism niche market. Activities such as climbing, surfing, diving, hiking, horseback safaris, mountain-biking, river-rafting – and just about any other extreme activity are supported by dedicated operators.

South Africa offers some of the best rock climbing and abseiling opportunities in the world. Those who prefer rivers have a choice of trips ranging from mostly scenic to Grade 5 white-water rafting. Opportunities for escorted or self-guided trips are also available.

For those who want to take to the skies, there are more than 100 listed paragliding or hang-gliding launch sites as well as numerous less known sites. There are also many opportunities for helicopter rides balloon and microlight flights, aerobatics and skydiving.

Thousands of kilometres of hiking trails wind through the country in desert, forest, mountain or coastal terrains, many with adjacent mountain-bike trails.

In addition, South Africa offers a wide variety of horse trails through vineyards, on beaches and in the mountains. For the more adventurous there are also horseback safaris in game reserves. The 216-metre Bloukrans Bridge on the border of the Eastern and Western Cape offers the highest commercial bungee jump in the world.

### Business tourism

South Africa remains one of the top 15 long-haul business-events destinations in the world and is the premier business-events destination in Africa.

The business-events industry was identified as an important contributor towards the NTSS's target of 15 million international arrivals by 2020.

Government recognises business-events tourism as an area with significant growth potential and has therefore established the first SANCB to further promote growth in the

conferencing industry. The SANCB is tasked with coordinating national bidding, undertaking research and collaborating with city and provincial convention bureaus and the business-events industry to present a united front for destination South Africa.

Over the next five years, South Africa will host 200 international conferences that will attract an estimated 300 000 delegates and an additional R1,6 billion to the economy.

### Cruise tourism

The department aims to help position the tourism sector in such a manner that its economic benefits become a reality for all South Africans.

It is exploring ways to ensure that South Africa increases its global competitiveness by identifying and developing niche markets.

The department works closely with the cruise line industry to ensure that packages and excursions are developed and that passengers are encouraged to visit the country's shores, enjoy what it has to offer and inspire other travellers to visit South Africa.

### Cultural tourism

Heritage and cultural tourism is the fastest-emerging competitive niche within domestic and international tourism markets. This category accounts for 40% of international tourism.

The National Heritage and Cultural Strategy is aimed at guiding the integration of heritage and cultural resources with mainstream tourism. It is set to stimulate sustainable livelihoods through heritage and cultural tourism products and to diversify the sector and raise awareness of heritage and cultural resources.

South Africa's diversity is reflected in its cultural tourism with many destinations commemorating the past. These range from the ancient nomadic San culture to European settlement, apartheid rule and the struggle for political freedom.

Cultural tourist destinations include the Ukhahlamba-Drakensberg Park in KwaZulu-Natal, which is home to the ancient rock art of the San; the Cradle of Humankind near Johannesburg, which is the richest hominid fossil site in the world; Mapungubwe in Limpopo, one of the richest archaeological sites in Africa where an advanced South African culture prospered between 1 200 AD and 1 270 AD; and Soweto's Heritage Trail, a reminder of the events that characterised South Africa's liberation struggle, such as the student uprising on 16 June 1976.

Tourism Month is an annual celebration held in September to focus on the importance of tourism to South Africa's economy.

Many cultural villages have been established throughout South Africa to reflect the different cultures and traditions of the country's peoples.

### Medical tourism

South Africa has emerged as a medical tourism destination of choice for travellers from other African countries as well as further afield; and the industry is proving to have extensive growth potential.

Most medical tourists come to South Africa for cosmetic surgery, but the country's skilled surgeons can also perform organ transplants, cardiac, orthopaedic and obesity surgery, and dentistry.

### Nature-based tourism

South Africa's fauna and flora and varied landscapes have enormous recreational value and attract several million tourists each year.

Protected natural areas serve not only to maintain biodiversity, but sustainable visitor access to these areas adds economic, recreational and aesthetic value to that which is being conserved within their borders. It also helps to preserve a wealth of traditional indigenous knowledge related to biodiversity, which is in itself a tourism resource.

South Africa has 19 national parks as well as numerous private game farms and nature reserves. Three of the country's eight UN Educational, Scientific and Cultural Organisation (Unesco) world heritage sites are natural sites, while one is a mixed cultural/natural site. These are the Cape Floral Region, the iSimangaliso Wetland Park, the Vredefort Dome, and the uKhahlamba Drakensberg Park.

South Africa's popularity as an avi-tourism destination is due to the large number of birds, endemic species and major bird habitats. Birdlife South Africa, South Africa's national birding organisation has more than 8 000 members and 40 branches nationwide.

### Rural tourism

The NDT's National Rural Strategy is aimed at creating community-driven bed-and-breakfast operations, catering for international and domestic tourists.

In supporting the geographic spread of tourism and in particular tourism growth in rural areas and enhancing the supply of rural tourism products, the department is focusing on rural communities.

Newlands is home to the renowned Kirstenbosch National Botanical Garden. Sunset music concerts at the garden are held on Sunday evenings during summer, from late November until early April.

Culture and heritage products are the fastest emerging competitive niche offerings in the domestic and international markets.

South Africa's competitiveness improved from 66th to 55th out of 139 countries that are rich in natural and cultural resources.

Sustainable development will be achieved if the people, whose land, culture and natural resources are used for tourism, benefit from such use in a meaningful way.

### Sports tourism

It is estimated that sports tourism contributes more than R6 billion to the South African tourism industry.

More than 10% of foreign tourists come to South Africa to watch or participate in sports events, with spectators accounting for 60% to 80% of these arrivals.

The world-class sporting events on South Africa's annual calendar include the:

- annual Cape Argus Cycle Race, which caters for 35 000 people riding and pushing their bikes over a 10km course
